

Name: _____

"The Development of Humans"

Date: _____

p. 40-41:

* What is history?

* How does studying history help us?

* What is evolution?

* What is creationism?

p. 43:

* What is one example of a change that has occurred in history?

p. 47 – 49. Starting with "homo habilis", take notes on the developments that happened for the humans in each time period.

Name	Time period	Development
Homo habilis (handyman)	2 to 1.5 million years ago	Made... Used...

Think for Yourself p. 45

Imagine yourself shipwrecked on a deserted island. Your mission is to survive on your wits alone. Your first task is to find food and water. You gather shellfish from the beach and find a stream. What now? Discuss ideas with a group, then on your own answer these questions:

<p>You see some fruit, but it is high up in a tree. Can you create a tool from available materials to help you solve this problem? Describe it?</p>	<p>You want to bring some water back to the beach. Can you make a tool for carrying and storing water? Describe it.</p>
<p>Brainstorm a list of short and long term needs for living on the deserted isle.</p> <p>Short-term need:</p> <p>Long-term need:</p>	<p>What tools can you create from available materials, and explain how each tool helps you meet a short or long-term need.</p>
