

Name: _____

Subtracting Integers Using Tiles and Number Lines

Use tiles to subtract the following integers:

1. $(-10) - 2 =$

2. $8 - (-3) =$

3. $9 - 6 =$

4. $(-7) - (-7) =$

5. $0 - (-6) =$

6. $3 - (-13) =$

7. $(-4) - (-6) =$

8. $10 - (-2) =$

Extending:

$(-12) - 8 - (-3) =$

Use number lines to subtract the following integers:

1. $8 - 2 =$

2. $(-6) - 3 =$

3. $(-7) - (-8) =$

4. $17 - (-5) =$

5. $(-21) - 7 =$

6. $0 - (-9) =$

7. $(-36) - 0 =$

8. $3 - 7 =$

Extending:

$(-21) - 5 - (-4) =$
